To Whom It May Concern:

It is with great pleasure that I write this letter of recommendation for the Lil' Iguana's Children's Safety Foundation. They recently performed their Safety Presentation at our school and were engaging, knowledgeable, motivating, professional and most importantly FUN.

The foundation's performance is geared to help educate children on car safety, how to be aware of their surroundings, getting permission before going somewhere or with someone, taking a buddy with you to stay safe, who is a stranger and how to respond when you feel unsafe.

The students and teachers are still talking about it and we can't wait to have them back next year!

I highly recommend booking this performance for your elementary school community. You won't be disappointed!

Sincerely,

Danielle St. Hilaire
